Certificate of Analysis Representative of Commodity Quality

PRODUCT SPECIFICATION: Liner alkyl benzene sulfonic acid

ORIGIN: Egypt

Specifications:

Product Name :	LABSA 92%
Chemical Name :	Liner alkyl benzene sulfonic acid
Color & Physical Form :	Brown light and honey
Active matter :	Min 90%
Molecular Wt. :	324
pH (5% Solution) :	1.5 – 2
Free Acid :	5 % max
Moisture :	5 % max

Application :

- Used for manufacture of liquid detergent.
 - Used in pesticides.
-
